

OMSimPrimaryGeneratorMessenger.hh

```
graph TD; A[OMSimPrimaryGeneratorMessenger.hh] --> B[G4UImessenger.hh]; A --> C[globals.hh];
```

The diagram illustrates the header file dependencies for OMSimPrimaryGeneratorMessenger.hh. It is a hierarchical structure where the top-level header file includes two other header files. The top-level file is represented by a grey box, while the included files are in white boxes. Two blue arrows point from the bottom of the top-level box to the top of the two lower boxes.
