

OMSimEventAction.hh

```
graph TD; A[OMSimEventAction.hh] --> B[G4UserEventAction.hh]; A --> C[string];
```

The diagram illustrates the dependencies of the header file OMSimEventAction.hh. It is shown as a central box at the top with two arrows pointing downwards to two other boxes: G4UserEventAction.hh on the left and string on the right. The top box has a grey background, while the bottom boxes have white backgrounds.

G4UserEventAction.hh
