```

The diagram illustrates the relationship between three files in the OMSim project. At the top, a grey-shaded box represents the header file `/OMSimPrimaryGeneratorAction.hh` located in `/home/runner/work/OMSim/OMSim/common/include`. Below it, two white boxes represent source files. The left box is `/OMSimPrimaryGeneratorAction.cc` in `/home/runner/work/OMSim/OMSim/common/src`, and the right box is `_area.cc` in `/home/runner/work/OMSim/OMSim`. Blue arrows point from each source file box up to the header file box, indicating that both source files include this header.

/home/runner/work/OMSim
/OMSim/common/src/OMSimPrimary
GeneratorAction.cc
