The diagram illustrates a file dependency structure. At the top is a grey-shaded box representing a header file: /home/runner/work/OMSim/OMSim/common/include/OMSimMDOMHarness.hh. Below it are two white boxes representing source files. The left box is /home/runner/work/OMSim/OMSim/common/src/OMSimMDOM.cc and the right box is /home/runner/work/OMSim/OMSim/common/src/OMSimMDOMHarness.cc. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header file.
