

abcDetectorComponent

```
classDiagram
    class abcDetectorComponent
    class DEggHarness
    DEggHarness --|> abcDetectorComponent
```

A UML class diagram showing an inheritance relationship. The class 'abcDetectorComponent' is at the top, represented by a white box with a black border. The class 'DEggHarness' is at the bottom, represented by a gray box with a black border. A blue arrow points from the top of 'DEggHarness' to the bottom of 'abcDetectorComponent', indicating that 'DEggHarness' inherits from 'abcDetectorComponent'.
