

OMSimPrimaryGeneratorMessenger.hh

```
graph TD; A[OMSimPrimaryGeneratorMessenger.hh] --> B[G4UImessenger.hh]; A --> C[globals.hh];
```

The diagram illustrates the header file dependencies for OMSimPrimaryGeneratorMessenger.hh. It is represented as a tree structure where the parent node at the top is OMSimPrimaryGeneratorMessenger.hh, and it has two child nodes below it: G4UImessenger.hh and globals.hh. Blue arrows point from the parent node to each of the child nodes, indicating the inclusion relationship.

G4UImessenger.hh

globals.hh
